

Dear Members,

May is already here and the activities of UWC are in full swing. Participants in the 2019 luncheons have welcomed several young guests to these events. Many of these visitors didn't know of the existence of the Club and their attendance to the luncheon ignited their interest in joining. We are still little known to ex-pats residing in a large city like Buenos Aires. This experience should inspire us to mention the club whenever we met English speaking women in Buenos Aires.

The Board is trying to improve its use of digital tools. Since last year, Membership provides a digital Directory. This change resulted in a significant reduction of the yearly expenses, and these savings increase the funds destined to subsidize the cost of the members' luncheon. I want to thank all our members who apply their talents to offer different activities that keep the motto of the UWC "Friendship and Learning" alive.

All the best

Mariel
